

Gateway to Fish River Canyon

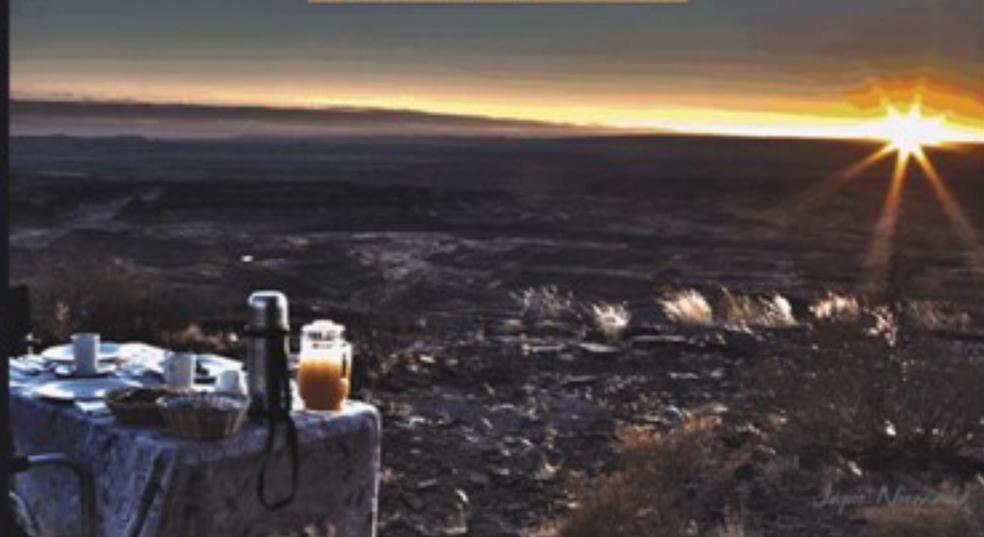

At the edge of an ancient river valley, shielded by a dune of red desert sand, Vogelstrausskluft Lodge is situated in one of the most beautiful locations of the surrounding territory. For the visitor, who approaches the lodge over a small hill, a wide view opens over the grassy bottom of the valley, in the centre of which, one of the few water holes is found where the animals come for water in dawn and dusk. Embedded in this harsh desert surrounding that constantly changes, Vogelstrausskluft Lodge offers the possibility to experience the wonder of Africa and the desert very closely, without having to abandon certain amenities.

All 24 en suite rooms are tastefully decorated and equipped with air conditioning, electricity and a small veranda with a view into the valley. Comfortably accessible via short paths, the restaurant and reception building is situated in the middle of the lodge. Aside from a restaurant and the reception it offers various spaces for your very individual relaxation: A lounge, a bar, a little library with a reading room and broadband internet connection, as well as a terrace with a small, very special, refreshing pool.

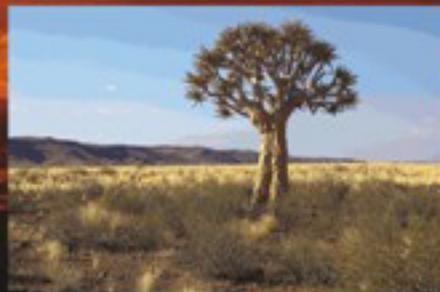

Vogelstrausskluft - Fish River Canyon Breakfast at Sunrise

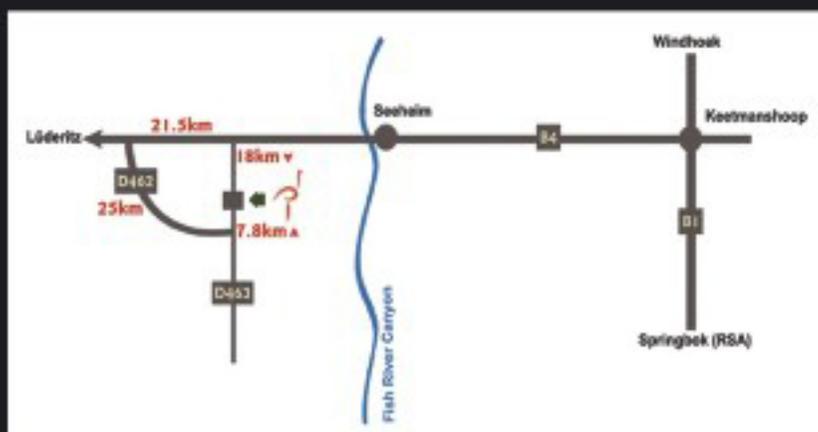

The Fish River Canyon is one of the largest canyons in the world. Situated alongside this natural wonder embedded in the Nama Karoo, one of the four impressive desert landscapes of Namibia, the Vogelstrausskluft Lodge offers unique possibilities for exploring not only the Canyon but also the various wonder of the desert habitat in a nutshell: With an area of more than 26 000 hectares, the associated territory includes a wide variety of landscapes (including 50km of the Fish River Gorge) supporting diverse plant-life and providing a safe habitat for both small and large animals.
